Current Affairs of The Day

Banking and Finance

- In an attempt to digitize and make financial access easy for farmers, Mastercard partnered with LEAF and launched a digital platform LFN for farmers to digitize the agri-value chain. LFN includes benefits such as digitization of harvest data, providing enhanced access to markets and expertise on better crops while also bringing transparency by connecting farmers directly with the buyers. With the help of this new digitized platform farmers can negotiate prices with complete transparency and manage end-to-end logistics with great quality control, making the whole process a lot easier LFN can be managed alone by farmers with support from LFN agents.

Current Affairs of The Day

Q2. How is LFN beneficial for farmers?

Ans. The platform LFN is a platform developed by taking into consideration the amount of work that it requires farmers on a regular basis, the platform simplifies the whole process and provides farmers with a platform where they can get into direct contact with the buyers and can negotiate prices on the platform itself. The LFN platform also improves the overall financial access and helps farmers by simplifying and improving their connection with the buyers making sales much easier.
